GUIDE AND INFORMATION

I used to believe that to be a good songwriter and write good songs, I had to be able to write them completely on my own.

Well, the truth is, I don't have everything it takes, I needed (and still need) the help and expertise and perspective of others around me...

I can't wait to hear your songs in progress so have a quick read of this guide so you know how to do it!

If you need help figuring this all out or just don't know where to start - just shoot me an email saying HELP and we'll get started..

Let's Do This Together.

HOW DOES IT WORK?

VMM

Once you've submitted your song (instructions below), my team and I will take 10 minutes to listen to it a couple of times and to write down our feedback.

The goal isn't for me to be a co-writer - it's just to give some fresh ears and perspective from a singer/songwriter, recording artist & music manager to help your song grow and blossom into a great song.

You will still own 100% of the copyright!

Then all you need to do is grab the feedback and your song and look at the areas that could be developed and start re-working your song.

Have fun and get writing!

INSTRUCTIONS:

- Type out your lyrics and save in a document.
- Record a simple version of your song on a voice memo on your phone or on Garageband and save it with your name and song title - eg KateWestwoodMakingWaves
- Send both files to us in an email at westwoodmgmtau@gmail.com
